

***MUST News* to be Published Bi-Annually**

The *MUST News* will now be published bi-annually, in the spring and fall. The change is the result of discussions on conserving time and resources while still bringing our readers the most up-to-date, pertinent news. If there are items of interest that need distributed sooner than the next scheduled publication, we will use the *MUST News* mailing list you currently subscribe to in order to get the information out. The goal is to remain timely and flexible while getting you the news you need most.
